EDUCATION

University of Colorado Boulder

• **Major:** B.S. in Creative Technology and Design | **Minor:** Computer Science | **Minor:** Computer Engineering | **Minor:** Space (Planetary) | **Deans List Spring 2025**

EXPERIENCE

Social Media Content Creator Intern | Good Crisp Company

JAN - JUNE 2026

- Produce and edit weekly TikTok content that transforms brand campaigns into platform-native storytelling rather than traditional advertisements.
- Develop content concepts from ideation through final edit, incorporating trends, audience behavior, and brand objectives.
- Analyze engagement metrics to identify high-performing creative formats and inform future content direction.

Independent Digital Content Creator & Marketing Consultant

MAR 2020 - PRESENT

- Partner with leading beauty and consumer brands, including Prada Beauty, L'Oréal Paris, Lancôme, CeraVe, Dermalogica, and First Aid Beauty to create sponsored digital content.
- Generated 2.6M views, 82K profile visits, 180K likes, and 23K comments across TikTok, Instagram, and YouTube within the past year.
- Build content strategies that blend storytelling, consumer psychology, and trend forecasting to increase audience engagement.
- Selected for competitive creator communities and ambassador programs, including Tatcha Collective, CeraVersity, Her Campus Media, Statusphere, and Skeepers.
- Led sorority-wide campaigns for brands including Nair and TheraBreath, coordinating event logistics, product distribution, and social promotion for hundreds of students.

Software Development Intern | IDX Exchange

JAN - MAY 2026

- Building a full-stack software product from concept to deployment, translating user needs into backend architecture, APIs, database structures, and front-end interfaces.
- Contribute to weekly engineering reviews where technical decisions, code quality, and product tradeoffs are evaluated collaboratively.
- Work within a simulated startup environment, balancing product functionality, usability, and scalability throughout development.

Campus Brand Ambassador | Vita Coco, ColourPop, AVO

JAN - JUNE 2026

- Execute monthly campus marketing activations, introducing products to large student audiences through experiential events and social content.
- Manage campaign logistics, event planning, budgets, and communication with brand marketing and PR teams.
- Collect consumer feedback and engagement insights that help brands evaluate campaign performance and campus reach.

Brand Activation Representative | Fazit Beauty

JAN 2026

- Represented Fazit Beauty during a live Broncos vs. Patriots activation, demonstrating products and engaging directly with consumers.
 - Produced event content that generated more than 42,000 views while extending campaign visibility beyond the activation itself.
-

PROJECTS & LEADERSHIP

Web Final Project | Deliberately Frustrating Volume Interface | HTML, CSS, JavaScript

JAN - MAY 2026

- Designed and developed a web-based volume control system intentionally optimized for poor usability while maintaining functionality.
- Conducted user testing sessions to identify friction points and measure how design choices impacted task completion.
- Applied UX principles in reverse to explore the relationship between interface design, efficiency, and user frustration.

Typography Final Project | Matcha Brand Identity & Packaging Design

JAN - MAY 2026

- Conceptualized a premium matcha company from initial research through final brand execution.
- Designed packaging, visual identity assets, and investor-facing presentation materials using Adobe Creative Suite.
- Applied typography, color theory, and consumer positioning research to create a cohesive brand experience.

Interactive Adventure Game | C++, Object-Oriented Programming

JAN - MAY 2025

- Designed and developed a multiplayer adventure game featuring randomized gameplay events, character interactions, and branching outcomes.
- Applied object-oriented programming principles to build scalable game systems while working within technical project constraints.
- Combined software development with narrative design to create an engaging player experience.

Society of Women Engineers (SWE) | Outreach Committee

AUG 2025 - PRESENT

- Support outreach and fundraising initiatives that expand opportunities for women pursuing STEM careers.
-
